

The FoNS Inspire Improvement Fellowship 2023

Open for applications!

Proudly supported by

- Are you a frontline clinical nurse/midwifery leader?
- Leading a team of nurses and /or carers?
- Keen to expand your skills in leading and facilitating culture change?
- Interested in person-centredness and continuous improvements in care and services at the frontline of practice?

The Inspire Improvement Fellowship is a fully-funded, development programme for frontline clinical nurse leaders (any setting UK-wide).

We welcome applications from people from diverse backgrounds in any health or social care setting

I have greater confidence to lead and facilitate. I am more likely to challenge practice and culture that is unhelpful. This has impacted on my communication with senior leadership and my relationships on the units.

This is the best thing I have had the opportunity to do professionally, it has changed my practice to create a positive culture and given me the tools to invest in my team, I wouldn't hesitate to recommend it!

How to apply

- Visit the [FoNS website](http://www.fons.org) and read more about the programme
- Email jo.odell@fons.org to arrange a chat to help you understand how to maximise your chances of success
- Talk to your line manager and Director of Nursing (or equivalent) to discuss how they can support you
- Closes 30 May 2023 and programme starts September 2023

Don't miss out!

The Inspire Improvement Fellowship has given me new confidence as a leader, allowed me time and space to open out my mindset and approach things differently.
